Registering to be a Counselor.

Step 1: Volunteer Counselor Application

Step 2: Volunteer Counselor References and Background Check

Make sure that you have 3 working emails for your references.

- These references should all be adults, and include your church coordinator or someone from your church.
- These should not be a family member.
- Please let your references know to expect an email from registrar@camptilikum.org

Tilikum emails recommendation forms to each of the Volunteer Counselor's references. These must be done each year. After Tilikum receives the completed forms back, background checks are run on each volunteer.

Step 3: Coordinator notification and approval

After references & background checks are completed, Tilikum emails a list of volunteers for final approval from your church coordinator. They will let you know that you are approved and ready.
